Senior Controls Engineer – West Coast

Description

Who You Are: You've got 10+ years of experience in designing and building industrial control systems and UL Listed control panels. You're a self-starter. You're that person who wants to know everything about everything and has as many as 20 tabs open at a time. You don't need much direction and like being thrown into the fray. Your motto is, I'll figure it out.

Responsibilities

What You'll Be Doing: No two days are alike at Cogito, but some of your responsibilities will include the following:

- * Control System Design
- * Drawing Review
- * Documentation Creation
- * PLC Programming (Allen Bradley and/or Siemens experience required)
- * HMI Programming (Allen Bradley and/or Siemens experience required)
- * Industrial Ethernet Configuration
- * Field Commissioning

Application Process

- * Upload personal resume & brief CL that includes desired salary
- * Complete online testing: if your resume is accepted, you'll be provided with a link
- * Phone Interview(s)
- * In-Person Interview
- * Background Check

Qualifications

- * BSEE or bachelor's degree in a related field
- * 10+ years of experience working with automation and industrial control systems, specifically designing and building control systems and panels
- * Advanced knowledge of all aspects of PLC/PAC design and programming- Allen-Bradley & Siemens strongly preferred
- * Advanced knowledge of database setup, configuration, stored procedure programming, and other aspects of database control as it relates to industrial applications
- * Advanced knowledge of HMI and SCADA applications
